## ANTARCTIC EXPLORER: THROUGH THE LENS - A UNIQUE PHOTOGRAPHY VOYAGE

Welcome to Aurora Expeditions' Antarctic Explorer: Through the Lens Fly/Sail expedition.

Early Antarctic explorers returned from their voyages to the deep south with tales of a magnificent, ice-covered land teeming with life, and you'll have the opportunity to do the same AND capture it all on your camera.

Experience the awe-inspiring immensity of Antarctica, reducing your time on the high seas by flying across the Drake Passage in one direction.

Immerse yourself in the unimaginable beauty of the Antarctic Peninsula, where vast glaciers tumble into the sea, penguins are dwarfed by soaring peaks and humpback and minke whales feast on abundant krill. Zodiac cruise in secluded bays and quiet coves filled with brash ice, keep a close watch for the tail fluke of whales as they take a deep dive and find yourself surrounded by the world's greatest landscapes.

### ITINERARY

Day 1 Arrive Punta Arenas

Arrive in Punta Arenas, where you will be met by a representative of Aurora Expeditions and transferred to our hotel. We ask that you arrive no later than 2.00 pm so that you may attend our important briefing this evening.

Please visit the Aurora Expeditions hospitality desk in the lobby between 10.00 am - 6.00 pm to collect your luggage cabin tags. Our team will confirm details regarding your embarkation day, answer any questions and provide you with information about where to dine or purchase last minute items.

Overlooking the Straits of Magellan, the city sits astride one of the world's most historic trade routes. Today, Punta Arenas reflects a great blend of cultural backgrounds, from English sheep ranchers to Portuguese sailors. It remains an utterly fascinating testament to Chile's rich history. Modern day Punta Arenas is home to many popular restaurants, and bars, offering a mix of local and international fare (meals at your own expense today).

At 7.00 pm this evening, meet your fellow expeditioners at a voyage briefing where we will reconfirm your transfer times for tomorrow, explain the procedures for your flight to King George Island and outline important IAATO regulations for visitors to Antarctica.

### Day 2 Embarkation

This morning we will be transferred to Punta Arenas airport for our charter flight to King George Island, Antarctica (weather permitting). The flight will take approximately one hour and forty-five minutes. On arrival into King George Island our expedition team is on hand to greet you and to prepare you for your Zodiac transfer to the vessel. You will have time to settle into your cabin before our important safety briefings.

Note: King George Island is located at the northern part of the Antarctic Peninsula in the South Shetland Islands and is one of the most remote places on Earth. A clear sky with perfect visibility is required for safe take-off and landing. A contingency plan will be applied to your itinerary should your flights not proceed today. Your safety is our utmost priority. We apologise in advance for any delays caused due to this unpredictable situation. Please refer to our terms and conditions for a more detailed explanation.

## Days 3-9 Antarctic Peninsula

It's almost impossible to describe the feeling of arriving in Antarctica. Spotting your first iceberg and taking a deep breath of some of the most fresh, crisp air on earth is an experience that will stay with you forever.

Once we arrive, the western side of the Antarctic Peninsula and the South Shetland Islands are ours to explore, and we have a host of choices available to us. Because we are so far south, we will experience approximately 18-24 hours of daylight and the days can be as busy as you wish.

Your experienced expedition team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing weather, ice conditions and wildlife opportunities.

We generally make landings or Zodiac excursions twice a day. You will want to rug up before joining Zodiac cruises along spectacular ice cliffs or among grounded icebergs, keeping watch for whales, seals and porpoising penguins. Zodiacs will also transport you from the ship to land, where you can visit penguin rookeries, discover historic huts and explore some of our favourite spots along the peninsula.

While ashore we aim to stretch our legs, wandering along pebbly beaches or perhaps up snow-covered ridgelines to vantage points with mountains towering overhead and ice-speckled oceans below. If you have chosen an optional activity, you will have the option to do that whenever conditions allow, and of course keen polar plungers will have the chance to fully immerse themselves in polar waters - conditions permitting!

In addition to Zodiac cruises and shore excursions, we may ship cruise some of the narrow, dramatic straits separating offshore islands from the mainland, or linger in scenic bays to watch whales travelling or feeding.

This is a great time to enjoy the observation lounge or make your way to the bridge for uninterrupted views of Antarctica in all its splendour. Keep an ear out for the creak and deep rumble of glaciers as they carve their way from summit to sea. Take a quiet moment to experience the wonder of this incredible white continent.

## Days 10-11 Drake Passage Crossing

Enjoy a final morning landing in the South Shetland Islands before we re-enter the Drake Passage for our return journey to South America.

With lectures and film presentations to complete our Antarctic experience, there is still plenty of time to enjoy the magic of the Southern Ocean and the life that calls it home. There is time for reflection and discussion about what we have seen and experienced. We hope you become ambassadors for Antarctica telling your family, friends and colleagues about your journey to this magical place, advocating for its conservation and preservation so that they might one day visit the region to experience what you have been lucky to see and do here.

As we approach the tip of South America, our Captain may sail close to legendary Cape Horn, weather and time permitting.

## Days 12 Disembark Ushuaia

During the early morning, we cruise up the Beagle Channel, before quietly slipping into dock in Ushuaia, where we will be free to disembark around 8.00 am. Farewell your expedition team and fellow passengers as we all continue our onward journeys, hopefully with a newfound sense of the immense power of nature.

Upon disembarkation, for those continuing their travels in the region, transportation to the hotel will be arranged exclusively for guests who have booked their accommodations through Aurora or for those staying in downtown areas near the port. Expeditioners departing on flights prior to 12:30 pm will be directly transferred to Ushuaia Airport, those with flights after 12:30 pm will have the opportunity to explore Ushuaia before an afternoon airport transfer, and the transfer procedures and details will be communicated onboard before disembarkation.

Note: At the conclusion of the voyage, we do not recommend booking flights departing Ushuaia prior to 12.00 pm on the day of disembarkation in case there are delays.

### Please note:

Itineraries are subject to change.

## YOUR SHIP: SYLVIA EARLE

<b>YOUR SHIP:</b>	<b>Sylvia Earle</b>
<b>VESSEL TYPE:</b>	<b>Luxury Expedition</b>
<b>LENGTH:</b>	<b>104 meters</b>
<b>PASSENGER CAPACITY:</b>	<b>126</b>
<b>BUILT/REFURBISHED:</b>	<b>2020/2021</b>

Due to sail in October 2021 our new ship honours the highly accomplished marine biologist, oceanographer and explorer, Sylvia Earle. As the first female chief scientist of the U.S. National Oceanic and Atmospheric Administration, and named by Time Magazine as its first Hero for the Planet in 1998 - this vessel pays tribute to Sylvia's long standing conservation efforts for marine protected areas and ocean wildlife. Sylvia Earle will be actively involved in the development of her namesake.

Designed for rugged, remote areas Crossing the notorious Drake Passage or the Denmark Strait, our expeditions face some of the most intense conditions nature can throw at us. The Sylvia Earle is at the cutting edge of nautical technology: robust, powerful and up to the task.

**Ulstein X-BOW® & Lounge** The streamlined Ulstein X-BOW® cuts through the swell so you feel fewer vibrations and disturbances, and makes quicker transits through waves. It also helps reduce our fuel consumption by up to 60%. Experience the Glass Atrium Lounge inside the bow, featuring huge windows and superb views to the front of the ship.

**Swimming pool & wellness centre** In between landings, enjoy the heated saltwater open air swimming pool and jacuzzis on

board the Sylvia Earle and watch the world go by, or experience our gym, sauna or enjoy a massage (additional cost) in the Wellness centre.

**Safety features** The Sylvia Earle will feature industry-leading safety technology that exceeds the requirements for a ship of this size with a world class return-to-port equipment, which duplicates the propulsion system, enabling the ship to maintain operating systems and comfort in the event of engine failure. The ship will also feature a fully-stocked medical clinic designed for use in remote areas.

**Responsible travel features** We believe that preserving and protecting the environment is of the utmost importance and this is reflected in several features of the Sylvia Earle. The Sylvia Earle will boast one of the lowest polluting marine engines in the world due to low energy consumption, high fuel-efficiency and a streamlined design to deliver an 80% reduction in emissions. The ship can also utilise virtual anchoring to hold its position using a combination of GPS, steering technology, propellers and thrusters. This protects the sea floor and minimises the damage caused by conventional anchors.

**Zodiac launching platforms** Our ships carry many Zodiacs, which you can board via four dedicated, sea-level launching platforms. These platforms make boarding the Zodiacs as quick, efficient and safe as possible, minimising wait times and getting you closer to the action for longer. Whether you're Zodiac cruising through awe-inspiring fjords in search of wildlife or making a quick transit from ship to a shore landing site, these sturdy crafts will play an integral role in your expedition experience.

**Activity preparation area** We offer a range of add-on adventure
