QUEST FOR THE ANTARCTIC CIRCLE - AN IN-DEPTH EXPLORATION OF THE ANTARCTIC PENINSULA

Experience an in-depth exploration of the Antarctic Peninsula with the pioneers of Antarctic cruising, featuring nine days on the continent--our longest, most comprehensive Antarctica experience available. This is the pinnacle of expeditionary travel as we push further south into rarely visited territory in pursuit of the Antarctic Circle. National Geographic Endurance, your home base for the adventure, is purpose-built to offer unprecedented access to these rarified places, and our diverse team of experts will ensure we maximize our time in the region. Along the way, Zodiac cruise around enormous icebergs, watch for whales off the bow, kayak in tranquility, and hike onshore. Choose an active agenda or surrender to the pleasures of relaxing downtime and shipboard camaraderie. Plus, get top shots with the help of a National Geographic Photography Expert.

ITINERARY

Day 1 Buenos Aires, Argentina

Arrive Buenos Aires. Transfer from the airport to the Alvear Icon or similar.

Arrival Time: Arrive before 11:30 a.m. local time.

Arrival City: Buenos Aires, Argentina

Day 2 Fly to Ushuaia, Argentina / Embark Ship

Fly to Ushuaia, the southernmost city in the world. Enjoy lunch on a catamaran cruise of the Beagle Channel. Embark National Geographic Endurance.

Meals Included: Breakfast, Lunch, Dinner

Days 3-4 At Sea Crossing the Drake Passage

This 500-mile-wide strait between South America and the Antarctic Peninsula is one of the most famous bodies of water in the world. Sometimes ferocious, sometimes flat calm, the Drake is always a fascinating place in its own right. This part of the journey is our best opportunity to see gorgeous seabirds like the wandering albatross, and we might be lucky enough to encounter killer whales or rare species of dolphins. This is also a day to get to know our ship and prepare for the adventures ahead. Visit the Bridge (a great place to spot wildlife), have a relaxing massage, attend a talk about the biology of the penguins you'll soon be seeing, or settle into a comfy chair in the observation lounge, look out over the waves and reflect on the incredible history of this fabled passage. If it does get a little rough, just take a couple of nice naps; we'll be in Antarctica before you know it.

Meals Included: Breakfast, Lunch, Dinner

Days 5-13 Deep Exploration Towards the Antarctica Circle

With long hours of daylight at this time of year, and nine days on the Continent, we can experience more as we sail in the wake of history's boldest explorers on a quest to cross the legendary Antarctic Circle. Our schedule is flexible, and our state-of-the-art ship allows us to get deeper and go further to take advantage of the unexpected, whether we're watching whales at play off the bow of our ship, walking amid thousands of Adelie and gentoo penguins, enjoying an evening Zodiac cruise under the spectacular midnight sun, or even discovering a new uncharted cove. While wildlife is magnificent, ice defines the Antarctic. You'll get to know ice up close and personal--from icebergs the size of islands, bergy bits and near-vertical glaciers, to the fragile, nearly invisible layers that have just begun to freeze.

One day, we might set out by kayak to encounter towering icebergs at water level or embark on a Zodiac excursion in search of seals and blue-eyed shags. The next, we might experience the thrill of the ship crunching through pack ice. Everywhere we go in Antarctica we're surrounded by opportunities to capture uniquely beautiful images. Along the way your expert expedition team will enrich your experiences and our IceMASTER Captain will navigate you safely through these icy waters.

Meals Included: Breakfast, Lunch, Dinner

Days 14-15 At Sea

Enjoy the ship's amenities as the coast of Antarctica disappears from view. Round the southernmost tip of South America and see the meeting of the Atlantic and Pacific Oceans. Take some time to go through your photos. Send a message home to friends and family saying: "Don't want this to end!" And celebrate your voyage at a farewell dinner on board.

Meals Included: Breakfast, Lunch, Dinner

Day 16 Ushuaia / Disembark Ship / Buenos Aires

Today we disembark in Ushuaia. Fly to Buenos Aires and connect with your overnight flight home.

Departure Time: Depart after 9:00 p.m. local time.

YOUR SHIP: NATIONAL GEOGRAPHIC ENDURANCE

YOUR SHIP:	National Geographic Endurance
VESSEL TYPE:	Expedition Ship
LENGTH:	124 m
PASSENGER CAPACITY:	126
BUILT/REFURBISHED:	2020

A next-generation expedition ship, purpose-built for polar navigation.

National Geographic Endurance is a next-generation expedition ship, purpose-built for polar navigation. A fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessel, it is designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. Its patented X-BOW® is key to its design; its powerful wave-slicing action provides an extremely smooth ride in even adverse conditions, and even reduces spray on deck, for superior observation. She carries a full suite of expedition tools and offers a variety of experience-enhancing amenities.

The luxury of comfort on expedition

National Geographic Endurance comfortably accommodates 126 guests in 69 outside-facing cabins. Cabins are efficiently designed, with sizes range from the 140-square-foot solo cabin to the 430-square-foot category 7 suite. Fifty-three of the 69 cabins, including all 12 of the solo cabins, will feature small balconies with floor-to-ceiling sliding doors that bring in the spectacular views and ample natural light.

Comfort & convenience in every room

Every cabin has two portholes, a large window or balcony, and temperature controls. Bathrooms are modern and stocked with botanically inspired hair products, soap, and shower gel, plus a hairdryer. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

_Dining: _Food served aboard is fresh, local, and delicious, and sourced from suppliers who share our values of sustainable use whenever possible. Meals aboard are almost always served in the dining room, located aft of the lounge deck. When weather conditions allow, lighter fare may be served on the observation deck. There is no assigned seating and our dining room accommodates the entire expedition community in a single seating. During meals your expedition leader, naturalists, and any guest speakers aboard will join you.

Public Areas: Two restaurants, a Chef's Table for small group dining, Observation Lounge with bar, gym, Wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an "open bridge" for access to our captain, officers and the art of navigation.

Meals: Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef's table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare.

_Cabins: All cabins face outside with large windows, private facilities and climate controls. 53 cabins have balconies. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

_Expedition Tools: Zodiac landing craft, kayaks, snowshoes, cross-country skis, undersea specialist operating a remotely Operated Vehicle (ROV) and underwater video camera for unique access to polar marine world, hydrophone, aerial remote-controlled camera and video microscope.

_Special Features: A full-time doctor, undersea specialist, National Geographic photographer, Lindblad-National Geographic certified photo instructor and video chronicler, an internet cafe and laundry.

_Wellness: The vessel is staffed by our wellness specialists and features a glass-enclosed yoga studio, gym, treatment rooms and spa relax area, and high- and low-heat saunas with ocean views.

_Expedition Landing Craft: Key to our operation is our fleet of expedition landing craft, which we use to land in places that would otherwise be inaccessible. With 8 of these boats and two loading stations used every time we disembark, we're able to transfer guests off the ship quickly, so you can be out on adventures, not idly waiting. The expedition landing craft we use are 19 feet long, powered by four-stroke outboard engines, and are capable of comfortably carrying 10-12 people. They are widely recognized as the safest and most versatile small boats afloat.

_Remotely Operated Vehicle: Capable of reaching 1,000 feet, far beyond the range of any Scuba diver, the ROV allows you to literally view parts of the undersea that are as unexplored as the

moon. Chances are you, like many of our guests, will be struck by how surprisingly colorful undersea life is in these unlikely places. And this glimpse may fundamentally change how you view the ocean.

_Kayaks: National Geographic Endurance will be equipped with a fleet of kayaks large enough to ensure everyone who wants to can paddle at every opportunity.

Consequently, prior kayaking experience isn't necessary--many of our guests have their first kayaking experience in extraordinary locations. Our custom-designed floating platform lets us deploy kayaks from the ship, or any location we want--including far from shore. Kayakers are usually free to explore where they want within boundaries set by the undersea specialist and officer of the watch.

_Underwater camera: Our undersea specialist will dive often during your expedition, even in Alaska, with cold-water gear, to shoot high-definition, Cousteau-like footage of the deep. Colorful nudibranchs, swimming, plant-like crinoids, and mysterious fish with antifreeze blood that thrive in the frigid sea will give you an entirely new appreciation of the marine environment.

_Video microscope: Naturalists will use the video microscope to help explain all elements of the environment, including tiny organisms that are the building block of the marine ecosystem. Spellbinding live views of krill at 80x magnification fills the high-definition screens in the lounge with vivid detail, and fills every onlooker with a sense of wonder at the importance of otherwise unobservable creatures.

_Hydrophone: This underwater microphone is deployed to listen to the vocalizations of marine mammals. Real time transmissions of their eerie, haunting sounds can be broadcast through the ship or recorded for later playback. Few experiences

in nature are as captivating as watching humpback whales feed close to the ship as their vocalizations play through the ship's PA system.

Electronic charts: An electronic chart showing the ship's location, course, and speed is almost always on display in the lounge.

Open bridge: You'll find our captains are engaged, knowledgeable members of your expedition who are eager to share their passion with you. Venture's open bridge features comfortable spaces to sit, enjoy the view, drink your morning coffee, or simply chat with the officers.

Snorkeling gear & wetsuits: On warm weather itineraries where there will be snorkeling, you'll select a mask, snorkel, fins, and wetsuit that remain yours for the duration of the expedition. There's no need to pack and tote your own gear, although guests who prefer to are welcome to bring their own.

their own.
